

Special Issue on Solar Energy and Applications

Call for Papers

Solar energy is the cleanest and most abundant renewable energy source available. Modern technology can utilize this energy for a variety of uses, including generating electricity, providing light or a comfortable interior environment, and heating water for industrial, commercial, domestic use. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of **solar energy and applications**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **solar energy and applications**. Potential topics include, but are not limited to:

- Solar energy techniques
- Solar energy utilization
- Solar energy measurement
- Solar radiation
- Solar cells
- Photovoltaic systems
- Development and applications

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Solar Energy and Applications**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	January 27th, 2017
Publication Date	March 2017

Guest Editor:

Dr. Fermin Mallor

Public University of Navarre, Spain
