

Special Issue on Environmental Assessment and Monitoring

Call for Papers

Environmental Assessment and Monitoring involves the systematic evaluation and continuous observation of environmental conditions to understand the impacts of human activities on natural ecosystems and to support sustainable development. This field applies scientific methods, analytical tools, and monitoring technologies to assess environmental quality, including air, water, soil, and biodiversity. It also investigates environmental risks, pollution sources, and ecological changes through environmental impact assessments, long-term monitoring programs, and data-driven analysis. By integrating environmental science, policy, and management practices, this area provides essential knowledge for environmental protection, informed decision-making, and the development of effective strategies for ecological sustainability and resource conservation.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Assessment and Monitoring**. Potential topics include, but are not limited to:

- Air quality monitoring
- Biodiversity monitoring
- Climate change monitoring
- Ecological risk assessment
- Ecosystem health assessment
- Environmental data analysis
- Environmental impact assessment
- Environmental management systems
- Environmental modeling and simulation
- Environmental policy assessment
- Environmental pollution analysis
- Environmental sustainability evaluation
- Natural resource monitoring
- Remote sensing for environment
- Soil contamination analysis
- Water quality assessment

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Environmental Assessment and Monitoring**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 10th, 2026
Publication Date	September 2026

Guest Editor:

Dr. Md. Faruque Hossain

Professor, American International University, Bangladesh
