

Special Issue on Fisheries and Aquaculture

Call for Papers

Fisheries provide foods and industrial raw materials for the demands arising in people's life and national construction. Fisheries resources are highly diverse and depend on responsible management decisions and practices for their sustainable development. The goal of this Special Issue is to provide a platform for scientists worldwide to promote, share, and discuss various new issues and developments in the area of **fisheries and aquaculture**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **fisheries and aquaculture**. Potential topics include, but are not limited to:

- Fisheries science
- Fisheries technology
- Aquaculture technology
- Fisheries resources
- Fisheries and aquaculture management
- Aquaculture production
- Aquatic animals diseases
- Environment and economics issues

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Fisheries and Aquaculture**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 26th, 2016
Publication Date	June 2016

Guest Editor:

Prof. **Yuki Sakamoto**

Nara Gakuen University, Japan
