

Special Issue on Behavioral Psychology

Call for Papers

Behavioral psychology is a theory of learning based on the idea that all behaviors are acquired through conditioning. Conditioning occurs through interaction with the environment. Behaviorists believe that our responses to environmental stimuli shape our actions. According to this school of thought, behavior can be studied in a systematic and observable manner regardless of internal mental states.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Behavioral Psychology**. Potential topics include, but are not limited to:

- Behavior analysis
- Positive/negative reinforcement
- Motivation, reward and behavior
- Consumer behavior and psychology
- Stimulus-response
- Cognitive behavior therapy
- Addictive behavior
- Anxiety-related behavior
- Behavior of internet user
- Childhood and adolescent behavior

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Behavioral Psychology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 26th, 2020
Publication Date	July 2020
