

Special Issue on E-Commerce

Call for Papers

Electronic commerce, commonly known as e-commerce or e-comm, is the buying and selling of products or services over electronic systems such as the Internet and other computer networks. Electronic commerce draws on such technologies as electronic funds transfer, supply chain management, Internet marketing, online transaction processing, electronic data interchange (EDI), inventory management systems, and automated data collection systems. Modern electronic commerce typically uses the World Wide Web at least at one point in the transaction's life-cycle, although it may encompass a wider range of technologies such as e-mail, mobile devices and telephones as well.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **E-Commerce**.

Authors should read over the journal's [Author's Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue-E-Commerce**" should be chosen during your submission.

According to the following timetable:

Manuscript Due	January 15, 2013
Publication Date	March, 2013

Editor-in-Chief

Prof. **Hengjin Cai**

Wuhan University, China
