What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
