

# Table of Contents

**Volume 8    Number 4**

**April 2017**

## **Linear Prolate Functions for Signal Extrapolation with Time Shift**

D. Valente, M. Cada, J. Ilow.....417

## **Boundedness of Calderón-Zygmund Operator and Their Commutator on Herz Spaces with Variable Exponent**

O. Abdalrhman A. Abdalmonem, S. P. Tao.....428

## **Conjugate Gradient Method to Solve Fluid Structure Interaction Problem**

M. Diop, I. Mbaye.....444

## **The Principal Component Transform of Parametrized Functions**

I. Zabrodskii, A. Ponosov.....453

## **Constructing Matching Equivalent Graphs**

T. Z. Wu, H. Z. Lü.....476

## **Some Universal Properties of the Green's Functions Associated with the Wave Equation in Bounded Partially-Homogeneous Domains and Their Use in Acoustic Tomography**

M. Idemen.....483

## **Preventions and Controls on Congenital Transmissions of Zika: Mathematical Analysis**

N. H. Shah, Z. A. Patel, B. M. Yeolekar.....500

## **On the Sanskruti Index of Circumcoronene Series of Benzenoid**

Y. Y. Gao, M. R. Farahani, M. S. Sardar, S. Zafar.....520

## **The Study on the Phase Structure of the Paul Trap System**

J. Kharbach, M. Benkhali, M. Benmalek, A. Sali, A. Rezzouk, M. Ouazzani-Jamil.....525

## **Modified Function Projective Synchronization of Complex Networks with Multiple Proportional Delays**

X. L. Qiu, H. H. Bin, L. C. Chu.....537

## **On the Evolution of Consanguinities**

P. G. Bamberg.....550

## **The Role of High Precision Arithmetic in Calculating Numerical Laplace and Inverse Laplace Transforms**

Z. Krougly, M. Davison, S. Aiyar.....562

## A Characterization of Besov Spaces of Para-Accretive Type and Its Application

J. X. Li, K. C. Wang.....590
