

Table of Contents

Volume 8 Number 12

December 2017

Probability Theory Predicts That Group Survival May Be Guaranteed for Groups with More Than 10 Elements

M. Osaka.....1745

Numerical Simulation Using GEM for the Optimization Problem as a System of FDEs

M. Adel, M. M. Khader.....1761

Error Estimator Using Higher Order FEM for an Interface Problem

M. Randrianarivony.....1769

Chelyshkov-Tau Approach for Solving Bagley-Torvik Equation

M. El-Gamel, M. Abd-El-Hady, M. El-Azab.....1795

Dynamic Analysis of Fractional-Order Fuzzy BAM Neural Networks with Delays in the Leakage Terms

P. Wang, J. W. Shen.....1808

Orthogonal Series Estimation of Nonparametric Regression Measurement Error Models with Validation Data

Z. H. Yin.....1820

The Design of Output Feedback Distributed Model Predictive Controller for a Class of Nonlinear Systems

B. L. Su, Y. Z. Wang.....1832

The Study on the Flow Generated by an Array of Four Flettner Rotors: Theory and Experiment

F. Garzón, A. Figueroa.....1851

Arnold Tongues for Discrete Hill's Equation

J. G. R. Servín, M. J. Collado.....1859

Variation of Parameters for Causal Operator Differential Equations

R. R. Ahangar.....1883

Gap Functions and Error Bounds for Set-Valued Vector Quasi Variational Inequality Problems

R. Gupta, A. Mehra.....1903

Some Applications of Higher Moments of the Linear Gaussian White Noise Process

I. S. Iwueze, C. O. Arimie, H. C. Iwu, E. Onyemachi.....1918
