Special Issue on Applied Mathematics and Analysis

Call for Papers

Applied mathematics is a combination of mathematics and other varied fields, which include physics, engineering, medicine, biology, finance, business, computer science, and industry. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Applied Mathematics and Analysis.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Applied Mathematics and Analysis**. Potential topics include, but are not limited to:

- Applied probability
- Applied mathematics and engineering
- Computational biology
- Industrial mathematics
- Mathematical economics
- Mathematical modelling
- Numerical analysis
- Physical applied mathematics
- Theoretical computer science
- Applied dynamical systems and nonlinear systems
- Mathematical analysis in other fields

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Applied Mathematics and Analysis***" should be selected during your submission.

Special Issue Timetable:

Submission Deadline	December 12th, 2022
Publication Date	February 2023
