

## Special Issue on Agricultural Biodiversity

### Call for Papers

Agricultural biodiversity is a broad term that includes all components of biological diversity of relevance to food and agriculture, and all components of biological diversity that constitute the agricultural ecosystems, also named agro-ecosystems: the variety and variability of animals, plants and micro-organisms, at the genetic, species and ecosystem levels, which are necessary to sustain key functions of the agro-ecosystem, its structure and processes. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **agricultural biodiversity**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **agricultural biodiversity**. In this special issue, potential topics include, but are not limited to:

- Genetic resources for food and agriculture
- Components of biodiversity that support ecosystem services
- Abiotic factors
- Importance of agricultural biodiversity
- Special nature of agricultural biodiversity
- Socio-economic and cultural dimensions

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Agricultural Biodiversity**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 26th, 2019
Publication Date	November 2019
