Special Issue on Vegetables and Agriculture

Call for Papers

Vegetables and Agriculture research focuses on the study of vegetable production and cultivation practices within the broader field of agriculture. This research area examines various aspects related to vegetable crops, including their cultivation techniques, genetic improvement, pest and disease management, post-harvest handling, and marketability. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **vegetables and agriculture**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **vegetables and agriculture**. In this special issue, potential topics include, but are not limited to:

- Vegetable farming
- Vegetables raised for seed production
- Production factors and techniques
- Disease and insect control
- The health benefits of vegetables
- Post-harvest management and quality
- Storage and preservation of vegetables
- Collection and preservation of vegetable resources
- Theory and technical method of vegetable breeding
- Vegetable improvement

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Vegetables and Agriculture***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	February 18th, 2027
Publication Date	April 2027
