Special Issue on Fruits and Agriculture

Call for Papers

The cultivation of fruit trees is one strategy that we feel can fight hunger on a long-term, sustainable basis. Though the importance of raising fruit trees has been underestimated by development communities, it ought to be a major element in any development scheme. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Fruits and Agriculture**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Fruits and Agriculture**. In this special issue, potential topics include, but are not limited to:

- Fruit farming
- Fruit cultivation techniques
- Fruit fresh keeping
- Fruit storage and transportation
- Fruit and health
- Fruit nutritional value
- Germplasm improvement of fruit trees
- Improvement of cucurbits germplasm
- Fruit trees and melon cultivation

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Fruits and Agriculture***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 10th, 2027
Publication Date	May 2027
