Special Issue on Climate Change and Agriculture

Call for Papers

The global needs to reduce its greenhouse gas emissions from agriculture and adapt its food-production system to cope with climate change. Faced with growing global demand and competition for resources, the global food production and consumption need to be seen in a broader context, linking agriculture, energy, and food security. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Climate Change and Agriculture**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Climate Change and Agriculture**. In this special issue, potential topics include, but are not limited to:

- Impacts of Climate Change on Crop Yields
- Adaptation Strategies in Agriculture
- Vulnerability Assessment of Agricultural Systems
- Climate-Smart Agriculture
- Interactions between Climate Change and Agricultural Emissions
- Ecosystem Services in Agricultural Landscapes
- Genetic Resources and Climate Change
- Policy and Governance for Climate-Resilient Agriculture
- Climate Change and Agricultural Markets
- Social and Economic Impacts of Climate Change on Agriculture

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - Climate Change and Agriculture**" should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 6th, 2027
Publication Date	June 2027
