

Special Issue on Economic, Legal, and Policy Perspectives

Call for Papers

Economic, Legal, and Policy Perspectives explore the interconnected dynamics of economic systems, legal frameworks, and policymaking processes that shape societies. This multidisciplinary approach examines how economic theories influence legal regulations, how laws impact market behavior, and how public policies drive economic development and social welfare. Key areas of focus include trade regulations, labor laws, taxation policies, financial governance, and sustainable economic growth. By analyzing these perspectives, scholars and policymakers can better understand the challenges and opportunities in balancing economic efficiency, legal compliance, and equitable policy implementation in a rapidly evolving global landscape.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Economic, Legal, and Policy Perspectives**. Potential topics include, but are not limited to:

- Business ethics and law
- Competition law and antitrust policies
- Corporate law and governance
- Digital economy and cyber law
