

## Special Issue on Automotive Engineering

### Call for Papers

**Automotive engineering** is a combination of mechanical, electrical and materials sciences. It is the design, manufacture and operation of motorcycles, automobiles, buses and trucks and their respective engineering subsystems. Automobile is the mode of transportation used most extensively in the modern world and plays an important role in people's life.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **automotive engineering**. Potential topics include, but are not limited to:

- Automotive design
- Automotive engine
- Automotive electronic
- Automotive materials
- Automotive mechanics
- Automotive dynamics
- Tyres and wheels
- New types of automobiles

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - Automotive Engineering**" should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 17th, 2016
Publication Date	May 2016
