

## Special Issue on Engineering Management

### Call for Papers

The field of study, engineering management, is exceptional in that it lies at the interface between engineering and business; it contains elements of both as well as subjects unique to its own area of study. In practice, it combines the engineer's technical problem-solving ability with business acumen and skills. The goal of this special issue is to provide a platform for scientists and academics all over the world to promote, share and discuss various new issues and developments in **engineering management**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **engineering management**. In this special issue, potential topics include, but are not limited to:

- Project management
- Real estate management
- Project investment and cost management
- International project contracting
- Bidding and quotation decision
- Project cost analysis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Engineering Management**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	September 10th, 2019
Publication Date	November 2019
