## Special Issue on Food and Beverage Studies

### Call for Papers

Food and Beverage Studies is an interdisciplinary field that examines the science, technology, culture, and management of both food and drinks, with particular emphasis on beverages. It covers the study of alcoholic and non-alcoholic drinks, including coffee, tea, wine, spirits, juices, smoothies, and functional or plant-based drinks. Key areas include drink formulation, fermentation, distillation, sensory evaluation, quality control, safety, packaging, and shelf-life. The field also explores consumer preferences, market trends, and innovative drink technologies, integrating scientific, cultural, and socio-economic perspectives to advance industry development, promote sustainability, and enhance public health through better beverage systems.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Food and Beverage Studies**. Potential topics include, but are not limited to:

- Brewing science
- Carbonated drinks
- Coffee research
- Dairy drink studies
- Drink packaging and shelf-life
- Drink product innovation
- Drink quality control
- Drink science
- Drink sensory evaluation
- Drink technology
- Fermentation studies
- Juice technology
- Smoothie and functional drinks
- Spirits and distillation
- Tea studies
- Wine studies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Food and Beverage Studies**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	March 27th, 2026
Publication Date	May 2026

**Guest Editor:**

Dr. Shiwei Xu

The Kraft Heinz Company/University of Delaware, USA
