

Special Issue on Foods and Public Health

Call for Papers

Foods and Public Health focuses on the critical interconnections between dietary patterns, food systems, and population health outcomes in both developed and developing contexts. It aims to advance interdisciplinary research addressing malnutrition in all its forms, diet-related non-communicable diseases, food safety, nutritional epidemiology, and health equity. The issue welcomes empirical studies, policy analyses, community-based interventions, and innovative methodologies that examine food environments, sustainable diets, food security, and regulatory frameworks influencing public health. By integrating perspectives from nutrition science, epidemiology, public health policy, food technology, and social sciences, this special issue seeks to provide evidence-based insights that inform effective strategies for improving dietary behaviors, strengthening food systems, and promoting long-term population health and well-being.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Foods and Public Health**. Potential topics include, but are not limited to:

- Behavioral and social determinants of diet
- Community nutrition interventions
- Dietary assessment methodologies
- Diet-related non-communicable diseases
- Environmental impacts of food systems
- Food safety and hygiene
- Food security and access
- Food systems and sustainability
- Food toxicology and risk assessment
- Health promotion and nutrition education
- Maternal and child nutrition
- Micronutrient deficiencies and fortification
- Nutrition policy and regulation
- Nutritional epidemiology
- Obesity prevention and management
- Public health nutrition

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Foods and Public Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 30th, 2026
Publication Date	July 2026

Guest Editor:

Dr. Azita Nemati
