

Special Issue on Obesity Research

Call for Papers

With the improvement of our living standards, more and more people suffer from **obesity**. It is most commonly caused by a combination of excessive food energy intake and lack of physical activity, which increases the likelihood of various diseases such as diabetes, heart disease and so on. As obesity becomes such a big threat to our human health, some urgent and effective ways should be taken to tackle the problem; furthermore, **obesity** is of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **obesity research**. Potential topics include, but are not limited to:

- Signs and symptoms of obesity
- Causes and mechanism of obesity
- Diagnosis of obesity
- Medications and surgery to obesity
- Prevention and prognosis of obesity
- Discrimination and barriers
- Cases of obesity

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Obesity Research**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 21st, 2014
Publication Date	October 2014
