

Special Issue on Poisoning, Toxicology and Health

Call for Papers

Toxicology is the scientific study of the adverse effects of chemicals on living organisms, which includes environmental agents, chemical compounds found in nature and pharmaceutical compounds that are synthesized for medical use. These substances may produce toxic effects in living organisms including disturbance in growth patterns, discomfort, disease and death.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Poisoning, Toxicology and Health**. Potential topics include, but are not limited to:

- Aquatic toxicology
- Chemical toxicology
- Clinical toxicology
- Ecotoxicology
- Environmental toxicology
- Forensic toxicology
- Medical toxicology
- Occupational toxicology
- Toxicogenomics
- Nephrotoxicity

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Poisoning, Toxicology and Health**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 20th, 2016
Publication Date	December 2016
