## Special Issue on Child Health & Development

### Call for Papers

Child Health & Development is an interdisciplinary field that examines the physical, cognitive, emotional and social growth of children from infancy through adolescence. It focuses on disease prevention, nutrition, mental health, family and social influences, and early intervention strategies. The field aims to promote healthy development, reduce health disparities, and support well-being through clinical care, public health programs and evidence-based policy and practice.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Child Health & Development**. Potential topics include, but are not limited to:

- Pediatric medicine
- Neonatal health
- Child nutrition and growth
- Developmental psychology
- Developmental neuroscience
- Social-emotional development
- Cognitive development
- Child mental health services & prevention science
- Immunization and infectious diseases
- Child and adolescent public health
- Genetics and pediatric diseases
- Developmental disabilities & early intervention
- Global child health & epidemiology
- Obesity and weight problems
- Special needs and disabilities
- Health policy for child health
- Child health disparities
- Children's healthcare
- Environmental health & toxicology

**Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Child Health & Development**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	March 13th, 2026
Publication Date	May 2026

Health Editorial Office
