

Special Issue on Mental Health, Psychology and Wellness

Call for Papers

Mental Health, Psychology and Wellness explores psychological, emotional, and behavioral factors that influence mental health and overall wellness. It covers mental health disorders, psychological assessment, stress and coping, resilience, emotional well-being, behavioral health, psychotherapy and preventive interventions. The topic also examines individual and social determinants of mental health, promoting psychological wellness, improving quality of life, and developing effective strategies for mental health support across different populations.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Mental Health, Psychology and Wellness**. Potential topics include, but are not limited to:

- Mental Health and Psychological Disorders
- Behavioral Health and Health Psychology
- Clinical Psychology, Psychotherapy and Intervention
- Cognitive Behavioral Therapy
- Neuroscience and Mental Health
- Neuropsychology
- Mental Health Epidemiology
- Psychological Assessment and Diagnosis
- Trauma & Stressor-Related Disorders
- Coping with Depression and Anxiety
- Substance Use and Addiction Studies
- Positive Psychology and Personal Development
- Emotional Health and Psychological Wellness
- Mental Health Promotion and Prevention
- Child and Adolescent Mental Health
- Social and Community Mental Health
- Occupational Mental Health
- Mental Healthcare and Nursing
- Mental Health and Primary Care
