## Special Issue on Biological Research and Immunological Studies

### Call for Papers

Biological Research and Immunological Studies encompasses the systematic investigation of living organisms and the complex mechanisms that govern immune function, host defense, and disease processes. This field integrates molecular biology, cellular biology, genetics, and microbiology to elucidate how organisms develop, respond to environmental stimuli, and defend against pathogens. Research in this area advances understanding of immune regulation, pathogen–host interactions, inflammatory pathways, and the molecular basis of health and disease. It also supports applied innovations such as vaccine development, immunotherapies, diagnostic technologies, and strategies for preventing and managing infectious and immune-related disorders.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Biological Research and Immunological Studies**. Potential topics include, but are not limited to:

- Cellular immunology
- Comparative immunology
- Developmental biology
- Environmental immunology
- Evolutionary biology
- Experimental biology
- Host–pathogen interactions
- Immunogenetics research
- Immunopathology studies
- Immunotherapy research
- Microbial pathogenesis
- Molecular biology
- Structural biology
- Systems immunology
- Translational immunology
- Vaccine development

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Biological Research and Immunological Studies***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 16th, 2026
Publication Date	June 2026

**Guest Editor:**

Dr. Jasneth Mullings  
Lecturer/Dean/Epidemiologist  
Health Research Resource Unit  
The University of the West Indies, India
