

## Special Issue on Drug Therapy and Disease Control

### Call for Papers

Drug Therapy and Disease Control is a multidisciplinary field focused on the development, evaluation, and clinical application of pharmacological treatments to prevent, manage, and cure diseases. It encompasses the study of drug mechanisms, efficacy, safety, dosage optimization, and therapeutic strategies across acute and chronic conditions. The field integrates insights from pharmacology, clinical medicine, molecular biology, and public health to ensure effective disease control at both individual and population levels. By emphasizing evidence-based practice, personalized medicine, and innovative drug development, Drug Therapy and Disease Control aims to improve patient outcomes, reduce disease burden, and enhance overall health management.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Drug Therapy and Disease Control**. Potential topics include, but are not limited to:

- Antimicrobial resistance management
- Cancer pharmacotherapy
- Cardiovascular drug therapy
- Chronic disease management
- Clinical drug trials
- Drug delivery systems and formulation
- Drug safety and adverse effects
- Evidence-based medicine in drug therapy
- Geriatric pharmacotherapy
- Infectious disease therapy
- Neurological and psychiatric drug management
- Pediatric pharmacotherapy
- Personalized medicine and pharmacogenomics
- Pharmacology and pharmacokinetics
- Public health and disease prevention strategies
- Vaccine development and immunotherapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Drug Therapy and Disease Control**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 18th, 2026
Publication Date	July 2026

**Guest Editor:**

Dr. Marjan Dzevaroski

Associate Professor, Faculty for Medical Sciences, Stip, Macedonia

Member, Pharmaceutical Chamber of R. Macedonia, Athens Institute for Education & Research and European Federation of Biotechnology (EFB), Macedonia
