## Special Issue on Innovations in Biomedical and Biological Sciences

### Call for Papers

Innovations in Biomedical and Biological Sciences highlights emerging discoveries and technological advances that are transforming research and applications in life and health sciences. This special issue focuses on novel methodologies, interdisciplinary approaches, and cutting-edge technologies that advance understanding of biological systems and improve biomedical outcomes. Topics may include developments in molecular biology, biotechnology, biomedical engineering, genomics, cellular and translational research, as well as new diagnostic, therapeutic, and preventive strategies. The issue aims to bring together researchers exploring innovative solutions to complex biological and medical challenges, fostering collaboration between fundamental biological science and clinical or applied biomedical research.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Innovations in Biomedical and Biological Sciences**. Potential topics include, but are not limited to:

- Biomedical engineering
- Biomedical imaging
- Biotechnology and bioengineering
- Cell biology
- Computational biology
- Drug discovery and development
- Genetics and genomics
- Immunology and immunotherapy
- Molecular biology
- Precision medicine
- Proteomics and metabolomics
- Regenerative medicine
- Stem cell research
- Synthetic biology
- Systems biology
- Translational medicine

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Innovations in Biomedical and Biological Sciences**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 18th, 2026
Publication Date	August 2026

**Guest Editor:**

Dr. Jasneth Mullings  
Lecturer/Dean/Epidemiologist  
Health Research Resource Unit  
The University of the West Indies, India
