
Special Issue on Information Technology and Applications

Call for Papers

Information technology (IT) is the application of computers to store, study, retrieve, transmit and manipulate data, or information, often in the context of a business or other enterprise. Several industries are associated with information technology, including computer hardware, software, electronics, semiconductors, internet, telecom equipment, and e-commerce.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Information Technology and Applications**. Potential topics include, but are not limited to:

- IT and management systems
- Algorithms and computing
- Informatization and information industry
- Data retrieval and transmission
- IT & infrastructure
- Information security
- Information and communications technology
- Applications in health, engineering and business
- IoT

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Information Technology and Applications**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 1st, 2020
Publication Date	August 2020

Scientific Research
Open Access

Journal of Computer and Communications

ISSN Online: 2327-5227
