## Special Issue on Artificial Intelligence and Applications

### Call for Papers

**Artificial Intelligence and Applications** focuses on the design and use of intelligent systems that can learn, reason, and act autonomously. It integrates computer science, data analytics, and cognitive modeling to solve complex problems. The field explores machine learning, natural language processing, robotics, and computer vision, applying them across industries such as healthcare, finance, education, and engineering. Its goal is to enhance efficiency, decision-making, and innovation through adaptive, data-driven technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Artificial Intelligence and Applications**. Potential topics include, but are not limited to:

- Machine learning algorithms and techniques
- Cognitive computing
- Affective computing and human-computer interaction
- Deep learning and reinforcement learning
- Artificial neural network
- Natural language processing
- Computer vision and image recognition
- Robotics, machine intelligence and autonomous systems
- Knowledge representation and reasoning
- Big data analytics and AI applications
- Expert systems and decision-making
- Multi-agent systems
- Human-computer interaction and AI
- AI in healthcare and medical diagnosis
- AI in finance and investment analysis
- AI and cybersecurity
- AI for science and discovery
- AI in industry and society
- Edge AI and Internet of Things (IoT) applications
- ChatGPT
- Generative AI
- Human-AI collaboration

**Authors should read over the journal's [For Authors](#) carefully before submission.**

---

**Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Artificial Intelligence and Applications**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 5th, 2026
Publication Date	April 2026

**For publishing inquiries, please feel free to contact the Editorial Assistant at [submission.entrance1@scirp.org](mailto:submission.entrance1@scirp.org)**
