

Special Issue on Computer Science & Systems

Call for Papers

Computer Science & Systems explores the theory, design, and implementation of computing technologies and complex information systems. It covers algorithms, data structures, software engineering, computer architecture, networks, operating systems, and intelligent systems. The field also studies how integrated hardware–software systems operate, optimize performance, ensure security, and support large-scale applications. Research often bridges foundational computing theory with practical system development to create efficient, reliable, and scalable computational solutions.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Computer Science & Systems**. Potential topics include, but are not limited to:

- Algorithms and data structures
- Computer architecture and embedded systems
- Computer system and programming
- Database systems and data management
- Operating systems and distributed systems
- Networks and communication systems
- Networking, mobile & wireless systems
- Software engineering and development methodologies
- Artificial intelligence and machine learning systems
- Cybersecurity and cryptography
- Human–computer interaction and user-centered systems
- High-performance computing and cloud systems
- Artificial neural networks
- Computing and information systems

Authors should read over the journal’s [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Computer Science & Systems**” should be chosen during your submission.

According to the following timetable:

Scientific Research
Open Access

Journal of Computer and Communications

ISSN Online: 2327-5227

Submission Deadline	March 19th, 2026
Publication Date	May 2026
