
Special Issue on Artificial Intelligence and Applications

Call for Papers

Artificial Intelligence and Applications studies the development of intelligent systems capable of performing tasks that typically require human intelligence, such as learning, reasoning, perception and decision-making. It integrates machine learning, computer vision, natural language processing and robotics. The field focuses on applying AI technologies across domains such as healthcare, finance, education and industry to improve efficiency, automation and problem-solving capabilities.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Artificial Intelligence and Applications**. Potential topics include, but are not limited to:

- Machine learning algorithms and techniques
- Cognitive computing
- Deep learning and reinforcement learning
- Artificial neural network
- Natural language processing
- Computer vision and image recognition
- Robotics, machine intelligence and autonomous systems
- Knowledge representation and reasoning
- Expert systems and decision-making
- Big data analytics and AI applications
- Human-computer interaction and AI
- AI in healthcare applications
- AI in finance and business
- AI and cybersecurity
- AI for science and discovery
- AI in industry and society
- Edge AI and Internet of Things
- Generative AI

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed

to be specified and the research field “**Special Issue – Artificial Intelligence and Applications**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 15th, 2026
Publication Date	October 2026

For publishing inquiries, please feel free to contact the Editorial Assistant at submission.entrance1@scirp.org
