## Editor in Chief

**Prof. Bouzid Menaâ**

Fluorotronics Inc., USA

## Editorial Board

**Prof. Salah Aida**

University of Constantine, Algeria

**Prof. Abdelkrim Chemseddine**

Hahn-Meitner Institute, Germany

**Prof. R. Gopalakrishnan**

Crystal Research Lab, Anna University of Chennai, India

**Prof. Junye Lu**

Fujian Institute of the Research on the Structure of Matter, China

**Prof. Shu-Shen Lu**

School of Chemistry and Chemical Engineering, Sun Yat-Sen University, China

**Dr. Klaus Merz**

Inorganic Chemistry I, Faculty of chemistry and biochemistry,

Ruhr-Universität Bochum, Germany

**Prof. Maximilyan Pugachevsky**

Institute for Materials Science of the Russian Academy of Sciences, Russia

**Dr. Radoljub I. Ristic**

The University of Sheffield, UK

**Prof. Camillo Rosano**

National Institute for Cancer Research, Italy

**Prof. Garth Simpson**

Simpson Laboratory for Non Linear Optics, Purdue University, USA

**Prof. Vitalyi Igorevich Talanin**

Classic Privat University, Ukraine

**Dr. Sunil Verma**

Laser Materials Development & Devices Division,

Raja Ramanna Centre for Advanced Technology, India

## Editorial Assistant

**Karen Zhang**

Scientific Research Publishing, USA Email: [jcpt@scirp.org](mailto:jcpt@scirp.org)

## Guest Reviewers

**Mehmet Akkurt**

**Paul R. Sharp**

## TABLE OF CONTENTS

Volume 1    Number 2

July 2011

### **A New Method for Research of Grown-In Microdefects in Dislocation-Free Silicon Single Crystals**

V. I. Talanin, I. E. Talanin, N. Ph. Ustimenko.....13

### **Structural, Optical, Electrical and Thermal Characterizations of Pure and L-alanine Doped Ammonium Dihydrogen Phosphate Crystals**

F. Akhtar, J. Podder.....18

### **Structural and Optical Properties of Triglycine Sulfate Single Crystals Doped with Potassium Bromide**

F. Khanum, J. Podder.....26

# **Journal of Crystallization Process and Technology (JCPT)**

## **Journal Information**

### **SUBSCRIPTIONS**

The *Journal of Crystallization Process and Technology* (Online at Scientific Research Publishing, [www.SciRP.org](http://www.SciRP.org)) is published quarterly by Scientific Research Publishing, Inc., USA.

#### **Subscription rates:**

Print: \$39 per issue.

To subscribe, please contact Journals Subscriptions Department, E-mail: [sub@scirp.org](mailto:sub@scirp.org)

### **SERVICES**

#### **Advertisements**

Advertisement Sales Department, E-mail: [service@scirp.org](mailto:service@scirp.org)

#### **Reprints (minimum quantity 100 copies)**

Reprints Co-ordinator, Scientific Research Publishing, Inc., USA.

E-mail: [sub@scirp.org](mailto:sub@scirp.org)

# Journal of Crystallization Process and Technology (JCPT)

ISSN 2161-7678 (Print) ISSN 2161-7686 (Online)

<http://www.scirp.org/journal/jcpt>

*Journal of Crystallization Process and Technology (JCPT)* is an international, specialized, English-language journal devoted to publication of original contributions concerning with the crystallization process, studies and properties of the crystalline materials.

## Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Crystals Growth, Design and Properties for Applications in Medical Sciences with Organic and Biological Substances Crystallization; Biomineralization; Opto-Electronics with Semiconductors, Superconductors, Magnetics, Inorganic and Inorganic-Organic Hybrid Materials Crystallization.
- Characterization by Physical and Chemical Methods; Apparatus, Instrumentation and Techniques for Crystal Growth, and Purification Methods.
- Crystallization as Bulk or Thin Films; Crystallization in Polymers, Liquid Crystals, Crystallization in Sol-Gel Glasses and Viscous Media.
- Crystallization Processes Including among Others Chemical Vapor Deposition, Hydrothermal, Organic, Solvent and Solvent-Free Processes.

The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects including physical, chemical, and biological phenomena and processes related to the design, growth, and application of crystalline materials. Contributions can concern also with the fundamental concepts of crystal growth and the understanding of the relationship between crystal growth conditions and resulting properties of the crystal:

- Modeling of Crystal Growth Processes.
- Nucleation Theory.
- Transport Phenomena in Crystal Growth.

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy.

## Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
