

Special Issue on Environmental Management

Call for Papers

Environmental management offers research and opinions on use and conservation of natural resources, protection of habitats and control of hazards, spanning the field of environmental management. With the deterioration of environment, the environmental policy can be deliberately taken to direct and oversee human activities and thereby prevent harmful effects on the biophysical environment and natural resources, as well as to make sure that the environment changes do not influence of human's production, life and health. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of environmental management.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **environmental management**. In this special issue, potential topics include, but are not limited to:

- Environmental management system
- The environment Impact assessment
- Environmental protection measures
- Environmental economy and policy
- Environmental law and tax
- Environmental monitor and assessment
- Environmental performance review

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Environmental Management**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	December 19th, 2018
Publication Date	February 2019
