

Special Issue on Environmental Pollution and Management

Call for Papers

Environmental pollution is the addition of any substance (solid, liquid, or gas) or any form of energy (heat, sound, or radioactivity) to the environment at a rate faster than it can be dispersed, diluted, decomposed, recycled, or stored in some harmless form. Besides the air, water and land pollution, there are also other specific types of pollutants, such as noise pollution, light pollution, and plastic pollution. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Environmental Pollution and Management.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Pollution and Management**. Potential topics include, but are not limited to:

- Air pollution
- Water pollution
- Land pollution
- Noise pollution
- Plastic pollution
- Marine pollution
- Electromagnetic pollution
- Light pollution
- Regulatory controls
- Technological solutions
- Management and mitigation techniques
- Assessment tools

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - *Environmental Pollution and Management***” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 28th, 2022
Publication Date	June 2022
