

Special Issue on
Environmental Conservation and Long-Term Development
Call for Papers

Environmental Conservation and Long-Term Development refers to the approach of safeguarding natural resources and ecosystems while pursuing economic and social progress in a way that ensures future generations can meet their needs. This concept integrates environmental protection with sustainable development strategies, aiming to reduce negative impacts on the environment such as pollution, habitat destruction, and resource depletion. It emphasizes the importance of balancing economic growth with ecological responsibility, promoting practices that conserve biodiversity, reduce carbon footprints, and use resources efficiently. Long-term development in this context focuses on creating resilient, sustainable communities and industries that can thrive without compromising the health of the planet.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Conservation and Long-Term Development**. Potential topics include, but are not limited to:

- Resource management
- Biodiversity preservation
- Ecosystem protection
- Climate change mitigation
- Renewable resources
- Sustainable practices
- Carbon footprint reduction
- Ecological balance
- Conservation strategies
- Green technologies
- Environmental impact
- Resource efficiency
- Environmental stewardship
- Circular economy
- Sustainable agriculture
- Pollution control
- Sustainable energy
- Ecosystem restoration
- Waste management
- Resilient communities

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Environmental Conservation and Long-Term Development**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 23rd, 2026
Publication Date	March 2026

Guest Editor:

Prof. Ping Xiang

Professor, Institute of Environmental Remediation and Human Health
Southwest Forestry University, Kunming, China
