

Special Issue on Sustainability and Environmental Adaptation

Call for Papers

Sustainability and Environmental Adaptation examines strategies and practices that promote long-term environmental sustainability while enhancing the ability of natural and human systems to adapt to changing environmental conditions. It encompasses topics such as climate change adaptation, ecosystem resilience, resource conservation, renewable energy, biodiversity protection, sustainable land and water management, and environmental governance. The field integrates knowledge from environmental science, ecology, engineering, economics, and policy studies to address global challenges related to climate change, environmental degradation, and resource scarcity. Through innovative solutions and adaptive approaches, Sustainability and Environmental Adaptation aims to support resilient ecosystems, sustainable communities, and balanced socioeconomic development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Sustainability and Environmental Adaptation**. Potential topics include, but are not limited to:

- Climate change adaptation
- Environmental sustainability
- Ecosystem resilience
- Biodiversity conservation
- Renewable energy systems
- Resource management
- Environmental governance
- Sustainable urban development
- Ecological restoration
- Circular economy
- Green infrastructure
- Sustainable agriculture
- Water resource management
- Carbon management
- Nature-based solutions
- Community resilience

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Sustainability and Environmental Adaptation**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 12th, 2026
Publication Date	November 2026

Guest Editor:

Prof. Ping Xiang

Professor, Institute of Environmental Remediation and Human Health
Southwest Forestry University, Kunming, China
