

Table of Contents

Volume 11 Number 2

May 2021

Application of Generalized Geometric Itô-Lévy Process to Investment-Consumption-Insurance Optimization Problem under Inflation Risk

O. Doctor.....163

The Long Memory of the Jump Intensity of the Price Process

Y. Z. Tian, D. Y. Shi, H. D. Li.....176

Combined Optimal Stopping and Mixed Regular-Singular Control of Jump Diffusions

C. Kusaya, M. Mandiudza, N. Mwareya, C. Matete, L. Shambira, N. Ngaza.....190

Impact of Dual Stock Holding and Stochastic Income on the Investor's Remuneration Package

K. I. Moalosi-Court, E. M. Lungu, E. R. Offen.....206

Covariate Selection for Mortgage Default Analysis Using Survival Models

D. F. Zhang, B. Bhandari, D. Black.....218

Convergence of a Randomised Change Point Estimator in GARCH Models

G. Awiakye-Marfo, J. Mung'atu, P. Weke.....234

Empirical Research on the Impact of Real Estate on Economic Development

S. C. Shen.....246

The Driving Factors of China's Housing Prices Pre- and after 2012

H. S. Li, T. Pan, Q. Q. Tang, Z. X. Tan.....255

Interest and Growth

A. P. Leung.....267

The Idiosyncratic Volatility Puzzle: A Time-Specific Anomaly

X. D. Zhang, J. Y. Li, X. L. Wang, X. X. Hu.....294

Pricing Bitcoin under Double Exponential Jump-Diffusion Model with Asymmetric Jumps Stochastic Volatility

N. F. Sene, M. A. Konte, J. Aduda.....313

The Effect of Changes in Regulation and Technology on Capital Investments

V. O. Okere, W. Chen.....331
