Special Issue on Mathematical Finance and Application

Call for Papers

Financial mathematics is the application of mathematical methods to financial problems. It uses the tools of probability, statistics, stochastic processes and economic theory. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Mathematical Finance and Application.**

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Mathematical Finance and Application**. Potential topics include, but are not limited to:

- Financial and economic modelling
- Financial econometrics
- Financial accounting
- Numerical methods in mathematical finance
- Financial engineering,
- Application of game theory in finance
- Statistical methods in financial management
- Risk management
- Econometrics and financial applications of other theories

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Mathematical Finance and Application***" should be selected during your submission.

Special Issue Timetable:

Submission Deadline	March 13th, 2021
Publication Date	May 2021
