Special Issue on Mathematical Finance and Applications

Call for Papers

Mathematical finance is a field of applied mathematics that is concerned with mathematical modeling of finance. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Mathematical Finance and Applications.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Mathematical Finance and Applications**. Potential topics include, but are not limited to:

- Applied statistics
- Derivatives pricing
- Financial modeling
- Financial risk management
- Mathematical tools
- Quantitative finance
- Risk and portfolio management
- Stochastic asset models
- Valuation analyst
- Commercial banking and credit analyst
- Capital markets and securities analyst
- Business intelligence and data analyst

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Mathematical Finance and Applications***" should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 21st, 2023
Publication Date	August 2023
