

Table of Contents

Volume 15 Number 4

March 2024

Spherically Symmetric Problem of General Relativity for a Fluid Sphere

V. V. Vasiliev, L. V. Fedorov401

Dynamic Spacetime: Key to the Mysteries of Dark Matter and Dark Energy

T. X. Zhang416

Electron G-Factor Anomaly and the Charge Thickness

A. Young435

Time Dilation Cosmology 2

J. H. (Cass) Forrington.....448

Einstein-Podolsky-Rosen Steering and Nonlocality in Open Quantum Systems

A. Sabik.....462

Observation about the Classical Electromagnetic Gauge Transformation and Its Quantum Correspondence

G. V. López, J. A. Lizarraga474

Tunable Multichannel Quantum Routing of Single Photons Based on Single-Mode Microresonators

J. S. Huang, J. L. Hu, H. W. Huang.....480

On Electron Clouds and Light

C. Daviau.....491

The Origin of Electric Charge in Quantum Gravity

E. E. Klingman.....511
