Call for Papers

Journal of Modern Physics

ISSN: 2153-1196 (Print) ISSN: 2153-120X (Online)
<https://www.scirp.org/journal/jmp>

Journal of Modern Physics (JMP) is an international journal dedicated to the latest advancement of modern physics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of modern physics.

Subject Coverage

Journal of Modern Physics publishes original papers including but not limited to the following fields:

Biophysics and Medical Physics	New Materials: Micro and Nano-Mechanics and Homogeneization
Complex Systems Physics	Non-Equilibrium Thermodynamics and Statistical Mechanics
Computational Physics	Nuclear Science and Engineering
Condensed Matter Physics	Optics
Cosmology and Early Universe	Physics of Nanostructures
Earth and Planetary Sciences	Plasma Physics
General Relativity	Quantum Mechanical Developments
High Energy Astrophysics	Quantum Theory
High Energy/Accelerator Physics	Relativistic Astrophysics
Instrumentation and Measurement	String Theory
Interdisciplinary Physics	Superconducting Physics
Materials Sciences and Technology	Theoretical High Energy Physics
Mathematical Physics	Thermology
Mechanical Response of Solids and Structures	

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
