Special Issue on Applied Physics

Call for Papers

Applied physics is the application of physics to solve scientific or engineering problems. It is usually considered to be a bridge or a connection between physics and engineering. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Applied Physics**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Applied Physics**. In this special issue, potential topics include, but are not limited to:

- Nanostructures, Nanomaterials
- Magnetic materials
- Atmospheric physics
- Plasma physics
- Engineering physics
- Materials physics
- Quantum technology

Authors should read over the journal's Authors' Guidelines carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Applied Physics***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	December 27th, 2026
Publication Date	February 2027
