Special Issue on Particle and Astrophysics

Call for Papers

Particle and Astrophysics is a highly interdisciplinary fundamental research domain that bridges the microscale laws of elementary particle interactions and the macroscale evolutionary dynamics of the entire universe. It unifies the exploration of the most basic constituents of matter, fundamental forces, and the origin, structure, and ultimate fate of all cosmic systems. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Particle and Astrophysics**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Particle and Astrophysics**. In this special issue, potential topics include, but are not limited to:

- Standard Model Precision Tests & Beyond Standard Model New Physics
- Dark Matter and Dark Energy Physics
- Astroparticle Physics & Ultra-high Energy Cosmic Ray Physics
- Neutrino Astrophysics
- High-energy Astrophysical Objects & Extreme Environment Physics
- Cosmology & Early Universe Physics
- Gravitational Wave Physics & Multi-messenger Astronomy
- String Theory, Quantum Gravity and Fundamental Spacetime Physics

Authors should read over the journal's Authors' Guidelines carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - *Particle and Astrophysics***" should be selected during your submission.

Special Issue timetable:

Submission Deadline	January 19th, 2027
Publication Date	March 2027
