

## Special Issue on Office Automation

### Call for Papers

This special issue on “**Office Automation**” will be focusing on the latest development in computer software technology. Office automation (OA) is a new office mode, combined the modern office work and computer network function. The OA functions including dictation, typing, filing, copying, fax, telex, and telephone switchboard operations. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **office automation**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **office automation**. In this special issue, potential topics include, but are not limited to:

- Functions and characteristics of office automation software
- OA technology platform and infrastructure
- OA future development trend
- OA approval process
- Business, information management, and decision support OA system
- Selection of OA software

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly note that the “**Special Issue**” under your manuscript title should be specified and the research field “**Special Issue – Office Automation**” should be selected during your submission.

Also please note the following timetable:

Submission Deadline	May 28th, 2014
Publication Date	July 2014
