

Special Issue on Fuzzy Sets, Fuzzy Logic and Fuzzy Systems

Call for Papers

The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in area of fuzzy sets, fuzzy logic and fuzzy systems.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Fuzzy Sets, Fuzzy Logic and Fuzzy Systems**. Potential topics include, but are not limited to:

- Fuzzy logic and algebra
- Fuzzy subsets and systems theory
- Approximate reasoning
- Decision theory and optimization
- Fuzzy probability and statistic
- Intelligent control
- Fuzzy topology and fuzzy mapping
- Neural-fuzzy systems
- Fuzzy programming and optimal
- Fuzzy information theory
- Soft computing and uncertainty modeling
- Fuzzy logic for machine intelligence
- Databases, business, finance and management, medical applications, expert Systems, image processing and pattern recognition and other such areas of interest

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Fuzzy Sets, Fuzzy Logic and Fuzzy Systems**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 27th, 2017
Publication Date	June 2017

Scientific Research
Open Access

Journal of Software Engineering and
Applications
ISSN Online: 1945-3124
