Special Issue on Enterprise Software Technology

Call for Papers

Enterprise software is computer software used to satisfy the needs of an organization rather than individual users. Such organizations include businesses, schools, interest-based user groups, clubs, charities, and governments.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **enterprise software technology**. Potential topics include, but are not limited to:

- ERP system
- IT service management
- Business intelligence and e-commerce
- Business & information technology
- Accounting software
- Financial applications
- Computer-integrated manufacturing
- Computer management systems

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – *Enterprise Software Technology***" should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 26th, 2018
Publication Date	August 2018
