

Special Issue on
Water Quality Evaluation and Regulatory Management
Call for Papers

Water Quality Evaluation and Regulatory Management focuses on the scientific assessment of water resources and the policy frameworks that govern their protection, safety, and sustainability. This field integrates chemical, biological, and physical analyses to identify contaminants, evaluate ecological health, and determine compliance with environmental standards. It also examines regulatory mechanisms, monitoring systems, and management strategies used to control pollution, safeguard public health, and ensure sustainable water use. By combining technical evaluation methods with governance and regulatory approaches, this area supports evidence-based decision-making and the effective stewardship of surface water, groundwater, and drinking water systems.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Water Quality Evaluation and Regulatory Management**. Potential topics include, but are not limited to:

- Biological monitoring
- Chemical contaminant analysis
- Drinking water regulation
- Ecological health assessment
- Environmental policy and governance
- Groundwater quality studies
- Hydrological evaluation
- Integrated water resource management
- Microbial water safety
- Pollution control strategies
- Regulatory compliance management
- Surface water monitoring
- Toxicity and risk analysis
- Wastewater management
- Water quality assessment
- Water quality modeling

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Water Quality Evaluation and Regulatory Management**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 10th, 2026
Publication Date	June 2026

Guest Editor:

Dr. Ahmed Saqr

Assistant Professor, Faculty of Engineering, Mansoura University, Egypt
