Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas of Open Journal of Air Pollution (OJAP) include but are not limited to the following fields:

- **Atmospheric Observations, Modeling, and Analysis**
 - Ambient Air Quality
 - Meteorology and Planetary Boundary Layer
 - Community Multi-Scale Air Quality Models
 - Natural/Anthropogenic Pollutant Emissions and Inventories
 - Air Quality and Climate Change Interactions
 - Air Quality Impact
 - Evaluation of Model Performance
- **Atmospheric Processes**
 - Biospheric-Atmospheric Exchange
 - Chemistry, Physics and Microbiology
 - Transport, Deposition, Accumulation, Acid Precipitation
- **Climate Impact and Interaction**
 - Environmental Impact of Built Environments
 - Impact of Climate Change
- **Environmental Awareness**
 - Ecological Implications and Environmental Jurisprudence
 - Education and Community Engagement

Health and Welfare Effects Associated with Air Pollution
Policy, Standards and Regulation

- **Environmental Toxicology**
 - Organic Compounds, Metals and Other Inorganic Compounds
 - Routes and Kinetics
 - Risk Assessment
- **Indoor Air Pollution (IAQ)**
 - Control Techniques
 - Indoor Air Pollutant
 - Thermal Comfort and Perceived Air Quality
- **Innovative Methods in the Study of Air Pollution**
 - Bio-Monitoring and Biomarkers of Exposure
 - CO₂ Capture as Measure of GHG Emission Mitigation
 - Environmental Biotechnology in Removing Air Pollutants
 - Gene-Sequencing and Bio-Informatics for Microbiology Studies
 - Space Based Remote Sensing Air Quality Observations
 - Wireless Sensors and Smartphone Monitoring

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
