

Special Issue on Applied Agriculture and Animal Science

Call for Papers

Applied Agriculture and Animal Science is an interdisciplinary field with a strong focus on animal production, health, nutrition, genetics, breeding and welfare. It applies scientific and technological advances to improve livestock management, reproductive efficiency, disease prevention, feed utilization and production systems. The field also addresses sustainable animal farming, precision livestock management and environmental impacts, aiming to enhance animal productivity and welfare while supporting food security and sustainable agricultural development.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applied Agriculture and Animal Science**. Potential topics include, but are not limited to:

- Animal nutrition and feeding
- Animal genetics and breeding
- Animal health and veterinary science
- Animal reproduction & biotechnology
- Animal health and disease prevention
- Animal welfare and behavioral science
- Ruminant nutrition and physiology
- Poultry and aquaculture science
- Sustainable animal production and management
- Animal products and food quality
- Precision livestock farming and smart animal agriculture

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Applied Agriculture and Animal Science**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	November 11th, 2026
Publication Date	January 2027

Scientific Research
Open Access

Open Journal of Animal Sciences

ISSN Online: 2161-7627
