

Special Issue on Logistics, Supply Chain Management & New Tech in Business

Call for Papers

Logistics, Supply Chain Management & New Tech in Business is an interdisciplinary academic field that studies the planning, coordination and optimization of goods, information, and financial flows across supply networks, while integrating emerging technologies. It examines transportation, warehousing, procurement, and distribution systems alongside digital tools such as AI, blockchain, IoT and automation to improve efficiency, resilience, sustainability and competitiveness in modern business environments.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Logistics, Supply Chain Management & New Tech in Business**. Potential topics include, but are not limited to:

- Supply chain finance and management
- Supply chain design and network optimization
- Transportation and distribution management
- Warehouse and inventory management
- Procurement and supplier relationship management
- Decision making technique
- Public policy and logistics
- Demand forecasting and planning
- Supplier relationship management
- Customer-relationship management
- Digital supply chains and industry 4.0
- Global supply chain management
- Artificial intelligence and analytics in logistics
- Big data analytics in supply chain management
- Supply chain analytics & decision intelligence
- Sustainable and green supply chain management
- Risk management and supply chain resilience
- E-commerce and Omni-channel logistics
- Autonomous logistics & drone delivery
- Digital supply chain twins & simulation

Authors should read over the journal's [For Authors](#) carefully before submission.

Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Logistics, Supply Chain Management & New Tech in Business**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	May 11th, 2026
Publication Date	July 2026
