

Special Issue on Diarrhea

Call for Papers

Diarrhea is the condition of having loose, watery stools that occur more frequently than usual. It is a problem everyone is familiar with and often results in dehydration due to fluid loss. The causes include viral and bacterial infections, as well as parasites, intestinal disorders or diseases, reactions to medications, and food intolerance.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Diarrhea**. Potential topics include, but are not limited to:

- Acute diarrhea
- Bloody diarrhea
- Celiac disease
- Chronic diarrhea
- Entamoeba histolytica
- Lactose intolerance
- Osmotic diarrhea

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Diarrhea**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 15th, 2016
Publication Date	September 2016
