Table of Contents

Volume 16 Number 3 September 2026

Prevalence of Malaria and Diversity of *pfmdr1* Gene Polymorphisms among *Plasmodium falciparum* Isolates in Daloa, Western Côte d'Ivoire

B. A. Ahouty, S. Simaro, A. A. Gbotto, O. Y. Ouattara, L. K. O. Dago, G. B. Kassi, A. E. Sokouri, Y. M. Koffi, T. K. Konan, M. N. Koffi 75

Detection of Trisomy 18 in a Fetal Tissue by Karyotyping and Chromosomal Microarray Analysis: A Case Report

J. Dermody, D. Streck, S. M. Patil, S. Aboualia, M. Hoque 89

Comparative Effect of Different Treatments with a Bacterial Polyketide in a Mouse Model of ALS (Amyotrophic Lateral Sclerosis)

E. Wulff 97

Open Journal of Genetics (OJGen) is an international journal dedicated to the latest advancements of Genetics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Genetics. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Classical and Developmental Genetics
- Conservation and Ecological Genetics (including Behavioural Genetics)
- Evolutionary and Population Genetics (except Human)
- Genetic Engineering
- Genetics of Plants and Animals in Agriculture (including Quantitative Genetics)
- Genomics
- Human and Medical Genetics (including Quantitative Genetics, Population Genetics, Psychiatric Genetics)
- Immunogenetics
- Microbial Genetics
- Molecular Genetics (including Gene Characterization and Polymorphisms, Control of Gene Expression and Epigenetics)
- Technical Tips and Improvement

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is an open access academic publisher. It currently publishes more than 200 peer-reviewed open access journals covering a broad spectrum of academic disciplines. Through its open access publishing model, SCIRP is committed to supporting the global research community and promoting the dissemination, exchange, and application of scholarly knowledge.

What is Open Access?

SCIRP ensures that all original research papers it publishes are offered free and continuing online accessibility as soon as they are published. In order to deliver open access journals, SCIRP charges authors to cover operational expenses and subscription fees only for the printed version. Open access publishing allows for unrestricted and worldwide access to the complete text of research papers, and is thus most advantageous to the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
